

AHAM SHARIAH GOLD TRACKER FUND (FORMERLY KNOWN AS AFFIN HWANG SHARIAH GOLD TRACKER FUND) ("FUND")

LIST HIGHLIGHTING THE AMENDMENTS FROM THE PROSPECTUS DATED 27 OCTOBER 2020 ("PROSPECTUS") AS MODIFIED BY THE FIRST SUPPLEMENTAL PROSPECTUS DATED 5 NOVEMBER 2021 ("SUPPLEMENTAL PROSPECTUS") AND THE REPLACEMENT PROSPECTUS DATED 28 FEBRUARY 2023 ("REPLACEMENT PROSPECTUS") IN RELATION TO THE FUND.

NO.	(A) PROSPECTUS AND SUPPLEMENTAL PROSPECTUS	(B) REPLACEMENT PROSPECTUS
	<p>Introduction:</p> <p>In general, the amendments made to the Prospectus are to reflect the following:</p> <ol style="list-style-type: none"> 1. Requirements of Guidelines on Unit Trust Funds (Revised: 28 November 2022) ("Revised GUTF") and Prospectus Guidelines For Collective Investment Schemes (Revised; 1 September 2022) ("Revised PCIS"); 2. Change in the shareholding of AHAM which took effect on 29 July 2022, whereby AHAM ceased to be a subsidiary of Affin Hwang Investment Bank and the Affin Banking Group. AHAM's ultimate major shareholders now, is CVC Capital Partners Asia Fund V, a private equity fund managed by CVC Capital Partners ("Change in Shareholding"); 3. Amendments made to the Second Supplemental Deed which was registered and lodged with the SC on 9 February 2023 ("Supplemental Deed"); and <p>We are of the view that amendments reflected in the Replacement Prospectus do not materially prejudice the unit holders' interests as they do not result in (1) change to the nature/objective of the Fund; (2) change to the risk profile of the Fund; (3) change in the distribution policy; (4) introduction of a new category of fees/charges; or (5) increase in fees/charges of the Fund (collectively known as "Material Prejudice Circumstances"). Hence a unit holders' approval is not required under paragraph 9.70 of the Revised GUTF and section 295(4)(a) of the Capital Markets and Services Act 2007.</p> <p>Additionally, except for the amendments pertaining to (1) repurchase proceed payout period; and (2) risk associated with suspension of repurchase request, we are of the view that other amendments are not significant changes that will affect unit holders' decision to stay invested in the Fund as they do not result in change to (1) investment strategy; (2) distribution policy; or (3) minimum balance of the Fund ("Significant Change Circumstances").</p>

5.	RISK FACTORS	
5.1	GENERAL RISKS OF THE FUND Financing Risk This risk occurs when you take a financing to finance your investment. The inherent risk of investing with borrowed money includes you being unable to service the financing repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.	Financing Risk This risk occurs when you take a financing to finance your investment. The inherent risk of investing with <u>financed</u> money includes you being unable to service the financing repayments. In the event Units are used as collateral, you may be required to top-up your existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.
5.2	Nil.	Inserted the following after “ Operational Risk ”: <u>Suspension of repurchase request risk</u> Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund’s assets cannot be determined. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.
5.3	SPECIFIC RISKS OF THE FUND Liquidity risk Liquidity risk refers to the risk that units of the Target Fund cannot be sold due to unavailability of buyers for such units or restriction on realisation of units of the Target Fund. Upon such event and in the best interest of the Unit Holders, the Trustee may suspend the repurchase of Units requests. Please refer to “Suspension of Dealing in Units” section of this Prospectus for more details. In order to mitigate such risk, we will maintain sufficient liquidity level for the purposes of meeting redemption requests.	Liquidity risk refers to the risk that units of the Target Fund cannot be sold due to unavailability of buyers for such units or restriction on realisation of units of the Target Fund. <u>This will have the effect of causing the investment to be sold below its fair value which would adversely affect the NAV of the Fund and subsequently the value of Unit Holders’ investments in the Fund.</u> In order to mitigate such risk, we will maintain sufficient liquidity level for the purposes of meeting redemption requests.

	<p>activities both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. The board compliance and risk management committee comprises of at least three Board members and is chaired by an independent director. At the operational level, we have established a compliance and risk oversight committee with the primary function of identifying, evaluating and monitoring risks as well as to formulate internal control measures to manage and mitigate the exposure to risks that may affect the performance of the Fund, returns to the investors or Unit Holders' interest within a clearly defined framework and is primarily responsible for ensuring that the policies and procedures that have been implemented are reviewed on an on-going basis with periodic assessments. The compliance and risk oversight committee reports to the board compliance and risk management committee on a quarterly basis.</p> <p>As the Fund will be investing a minimum of 90% of its NAV in one collective investment scheme, the risk management of the Fund will largely be held at the level of the collective investment scheme that the Fund is investing in.</p> <p>To manage non-compliance risks, we use information technology system that is able to monitor the trading of investment to ensure compliance with the Fund's investment limits and restrictions. These limits are system-controlled and not manually tracked, thus reducing the probability of human error occurring in ensuring the Fund's limits and restrictions are adhered to. We also undertake stringent evaluation of movements in market prices and regularly monitor, review and report to the investment committee to ensure that the Fund's investment objective is met. Regular portfolio reviews by senior members of the investment team further reduce the risk of implementation inconsistencies and guidelines violations.</p> <p>We will also have in place a credit rating evaluation and credit risk management process to reduce counterparty risk of derivatives to ensure they are able to meet their contractual obligations. It is important to note that an event of downgrade does not constitute a default. If we view that the downgrade in the rating of the counterparty may lead to high credit risk, we will not hesitate to take pre-emptive measures to unwind these positions.</p> <p>We will also closely monitor the performance of the underlying investments of the Fund by looking at the collective investment scheme's standard deviation, tracking error and measures of excess return. The data obtained will be reviewed on a quarterly basis, or as and when extreme market conditions or price movement in the collective investment scheme occurs.</p>	<p>both at operational level and at portfolio management level to ensure that the risk management process is in place and functioning. 		<p><u>Liquidity Risk Management</u> <u>We have established liquidity risk management policies to enable us to identify, monitor and manage the liquidity risk of the Fund in order to meet the repurchase requests from the Unit Holders with minimal impact to the Fund as well as safeguarding the interests of the remaining Unit Holders. Such policies take into account, amongst others, the asset class of the Fund and the redemption policy of the Fund. To manage the liquidity risk, we have put in place the following procedures:</u></p> <ul style="list-style-type: none"> a) <u>The Fund may hold a maximum of 15% of its NAV in money market instruments and/or deposits. This will allow the Fund to have sufficient buffer to meet the Unit Holders' repurchase request;</u> b) <u>Regular review by the designated fund manager on the Fund's investment portfolio including its liquidity profile;</u> c) <u>Daily monitoring of the Fund's net flows and periodic liquidity stress testing of the Fund's assets against repurchase requests during normal and adverse market conditions are performed as pre-emptive measures in tracking the Fund's liquidity status. This will ensure that we are prepared and able to take the necessary action proactively to address any liquidity concerns, which would mitigate the potential risks in meeting Unit Holders' repurchase requests; and</u> d) <u>Suspension of repurchase requests from the Unit Holders under exceptional circumstances where the market value or fair value of a material portion of the Fund's assets cannot be determined. During the suspension period, the repurchase requests from the Unit Holders will be accepted but will not be processed. Such repurchase requests will be processed on the next Business Day once the suspension is lifted. That said, the action to suspend repurchase requests from the Unit Holders shall be exercised only as a last resort by the Manager having considered the best interests of Unit Holders.</u>
