

**LIST HIGHLIGHTING THE AMENDMENTS FROM THE INFORMATION MEMORANDUM ISSUED ON 15 DECEMBER 2023 (“REPLACEMENT INFORMATION MEMORANDUM”) IN RELATION TO THE FUND**

In general, the amendments are made in the Replacement Information Memorandum dated **15 December 2023** to reflect the following, but is not limited to:

1. Change in the shareholding of AHAM, which took effect on 29 July 2022. AHAM Asset Management Berhad (“AHAM”) ceased to be a subsidiary of Affin Hwang Investment Bank and the Affin Banking Group. AHAM’s ultimate major shareholders now, is CVC Capital Partners Asia Fund V, a private equity fund managed by CVC Capital Partners;
2. Requirements of Guidelines on Unlisted Capital Market Products under the Lodge and Launch Framework (Revised: 29 August 2023);
3. Amendments made to the Deed which was lodged with the Securities Commission Malaysia;
4. Change in the name of the Manager;
5. Change in the name of the Fund;
6. Update in asset allocation of the Fund to remove cash;
7. Updates to the risks of the Fund and risks related to the Target Fund for better clarity purpose;
8. To streamline the processes and procedures for the Fund such as repurchase proceeds payout period, cooling-off right and suspension of dealing in units; and
9. Updates in sections pertaining to the Target Fund Manager’s information.

**1) Change in the name of the Manager**

Prior Disclosure	Revised Disclosure
Affin Hwang Asset Management Berhad	AHAM Asset Management Berhad

**2) Change in the name of the Fund**

#### 4) Update in Asset Allocation and Investment strategy of the Fund

Prior Disclosure	Revised Disclosure
<p><b>ASSET ALLOCATION</b></p> <ul style="list-style-type: none"> <li>A minimum of 80% of the Fund's NAV to be invested in the Target Fund; and</li> <li>A maximum of 20% of the Fund's NAV to be invested in money market instruments, deposits and/or cash.</li> </ul>	<p><b>ASSET ALLOCATION</b></p> <ul style="list-style-type: none"> <li>A minimum of 80% of the Fund's NAV to be invested in the Target Fund; and</li> <li>A maximum of 20% of the Fund's NAV to be invested in money market instruments and/or deposits.</li> </ul>
<p><b>INVESTMENT STRATEGY</b></p> <p>The Fund will be investing a minimum of 80% of the Fund's NAV into the Target Fund and a maximum of 20% of the Fund's NAV into money market instruments, deposits with Financial Institutions and / or cash.</p> <p>We may take temporary defensive positions that may be inconsistent with the Fund's principal strategy by reducing its investments into the Target Fund and raise liquidity level of the Fund during adverse market conditions to protect the Unit Holders' interest. In raising the Fund's liquidity level, we may also invest in collective investment schemes that are relevant and consistent with the investment objective of the Fund.</p> <p>We hold the discretion to substitute the Target Fund with another fund that has a similar objective with the Fund, if, in our opinion, the Target Fund no longer meets the Fund's investment objective. However, this is subject to the Unit Holder's approval before such change is made.</p>	<p><b>INVESTMENT STRATEGY</b></p> <p>The Fund will be investing a minimum of 80% of the Fund's NAV in the Target Fund and a maximum of 20% of the Fund's NAV in money market instruments and/or deposits.</p> <p>We may substitute the Target Fund with another fund that has a similar investment objective with the Fund, if, in our opinion, the Target Fund no longer meets the Fund's investment objective. However, this is subject to the Unit Holder's approval before such change is made.</p> <p><b>Temporary Defensive Measure</b></p> <p>We may take temporary defensive positions that may be inconsistent with the Fund's principal strategy and asset allocation by reducing its investment in the Target Fund and raise the liquidity level of the Fund during adverse market conditions that may impact financial markets to protect the Unit Holders' interest. In raising the Fund's liquidity level, we may also invest in CIS that are relevant and consistent with the investment objective of the Fund. To manage the risk of the Fund, we may shift the Fund's focus and exposure to lower risk investments such as deposits or money market instruments.</p>
<p><b>Derivatives</b></p> <p>We may employ derivatives, such as foreign exchange forward contracts and cross currency swaps, mainly for hedging purposes. Cross currency swaps and/or foreign exchange forward contracts may be used to hedge the principal and/or the returns of the foreign currency exposure of any of the Class(es) against the Base Currency of the Fund. The employment of derivatives under these circumstances is expected to reduce the impact of foreign currency movements of the Fund's NAV, irrespective of the currency classes. While the hedging strategy will assist with mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well. The Fund may also employ derivatives for investment purposes to enhance the returns of the Fund by taking a view on the underlying asset or currency, and establish a long position to gain a specific underlying exposure. The types of derivatives envisaged for</p>	<p><b>Derivatives</b></p> <p>Derivatives trades may be carried out for hedging purposes through financial instruments including, but not limited to, forward contracts, futures contracts and swaps. Futures and forward contracts are generally contracts between two parties to trade an asset at an agreed price on a pre-determined future date whereas swaps is an agreement to swap or exchange two financial instruments between two parties.</p> <p>The intention of hedging is to preserve the value of the assets from any adverse price movements. While the hedging transactions will assist in mitigating the potential foreign exchange losses by the Fund, any potential foreign exchange gains from the hedging strategy will be capped as well.</p> <p>The Fund adopts commitment approach to measure the Fund's global exposure to derivatives. The commitment</p>

Prior Disclosure	Revised Disclosure
investment purposes include forwards and swaps which are OTC or traded on centralized exchanges.	approach is a methodology that aggregates the underlying market values or notional values of derivatives after taking into account the possible effects of netting and/or hedging arrangements. The Fund's global exposure from the derivatives position must not exceed 100% of NAV of the Fund at all times.

**5) Update in Disclosure of Valuation of the Fund**

Prior Disclosure	Revised Disclosure
<p><b>Unlisted Collective Investment Schemes</b> Investments in unlisted collective investment schemes shall be valued based on the last published repurchase price.</p> <p><b>Deposit</b> Valuation of fixed deposits placed with Financial Institutions will be done by reference to the principal value of the fixed deposits and the interests accrued thereon for the relevant period.</p> <p><b>Money Market Instruments</b> The valuation of MYR denominated money market instruments will be done using the price quoted by a Bond Pricing Agency registered with the SC. For foreign money market instruments, valuation will be done using the average indicative yield quoted by 3 independent and reputable institutions.</p> <p><b>Derivatives</b> Valuation of derivatives will be based on the rates provided by the respective issuers. For foreign exchange forward contracts ("FX Forwards"), we will apply interpolation formula to compute the value of the FX Forwards based on the rates provided by the Bloomberg. If the rates are not available on the Bloomberg, the FX Forwards will be valued by reference to the average indicative rate quoted by at least 3 independent dealers. In the case where we are unable to obtain quotation from 3 independent dealers, the FX Forwards will be valued in accordance to fair value as determined in good faith by us, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.</p> <p><b>Any Other Investment</b> Fair value as determined in good faith by us, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.</p>	<p><b>Unlisted CIS</b> Valuation of investments in unlisted CIS shall be based on the last published repurchase price.</p> <p><b>Deposits</b> Valuation of deposits placed with Financial Institutions will be done by reference to the principal value of the deposits and the interests accrued thereon for the relevant period.</p> <p><b>Money Market Instruments</b> Valuation of MYR denominated money market instruments will be done using the price quoted by a bond pricing agency ("BPA") registered with the SC. For non-MYR denominated money market instruments, valuation will be done using an average of quotations provided by reputable Financial Institutions. Where the Manager is of the view that the price quoted by BPA differs from the fair value or where reliable market quotations are not available, the fair value will be determined in good faith by the Manager using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee. This may be determined by reference to the valuation of other money market instruments which are comparable in rating, yield, expected maturity date and/or other characteristics.</p> <p><b>Derivatives</b> Valuation of derivatives will be based on the prices provided by the respective issuers. The issuers generate the market valuation through the use of their own proprietary valuation models, which incorporate all the relevant and available market data with respect to the derivatives (e.g. interest rates, movement of the underlying assets, volatility of the underlying assets, the correlation of the underlying assets and such other factors). For foreign exchange forward contracts ("FX Forwards"), interpolation formula is applied to compute the value of the FX Forwards based on the rates provided by Bloomberg or Refinitiv. If the rates are not available on Bloomberg or Refinitiv, the FX Forwards will be valued based on a fair value as determined in good faith by the Manager, using methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.</p> <p><b>Any Other Investments</b> Fair value as determined in good faith by the Manager, based on the methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.</p>

6) Update about the Classes of the Fund

Prior Disclosure				Revised Disclosure				
<b>About the classes</b>				<b>About the classes</b>				
<b>Classes</b>	<b>Minimum Initial Investment*</b>	<b>Minimum Additional Investment*</b>	<b>Minimum Units Per Switch*</b>	<b>Classes</b>	<b>Minimum Initial Investment*</b>	<b>Minimum Additional Investment*</b>	<b>Minimum Repurchase Unit*</b>	<b>Minimum Units Per Switch*</b>

<p><i>* Subject to the Manager's discretion, you may negotiate for a lower amount or value.</i></p> <p><b>The Fund may create new Classes and/or new Hedged-classes in respect of the Fund in the future. You will be notified of the issuance of the new Classes and/or new Hedged-classes by way of communiqué and the prospective investors will be notified of the same by way of a supplemental/replacement information memorandum.</b></p>				<p><i>*At our discretion, we may reduce the transaction value and Units, including for transactions made via digital channels, subject to terms and conditions disclosed in the respective channels.</i></p> <p><b>The Fund may create new Classes without having to seek Unit Holders' prior approval. You will be notified of the issuance of the new Classes by way of Communiqué and the investors will be notified of the same by way of a supplemental/replacement information memorandum.</b></p>				

7) Update about the Fees and Charges

Prior Disclosure	Revised Disclosure
<p><b>SWITCHING FEE</b></p> <p>Nil</p>	<p><b>SWITCHING FEE</b></p> <p>The Manager does not impose any switching fee. However, if the amount of sales charge of the fund (or class) that the Unit Holder intends to switch into is higher than the sales charge imposed by the fund (or class) being switched from, then the difference in the sales charge between the two (2) funds (or classes) shall be borne by the Unit Holder.</p>

## 8) Update About the Target Fund

Prior Disclosure	Revised Disclosure
<p><b>ABOUT THE TARGET FUND</b></p> <p><b>TYPE OF CLASS:</b> USD P-accumulation share class</p>	<p><b>ABOUT THE TARGET FUND</b></p> <p>&lt;REMOVED&gt;</p>
<p><b>INVESTMENT OBJECTIVE AND INVESTMENT POLICIES</b></p> <p>The investment objective of the Target Fund is to achieve high capital gains and a reasonable return, while giving due consideration to capital security and to the liquidity of assets. The Target Fund will invest at least 70% of its total net assets in equities, cooperative society shares and participation shares, participation certificates and warrants of companies which are domiciled in or are chiefly active in the PRC. The majority of net assets are invested in Chinese A-shares. Chinese A-shares are RMB denominated shares of companies domiciled in mainland China; these A-shares are traded on Chinese stock exchanges such as the Shanghai Stock Exchange and the Shenzhen Stock Exchange. The Target Fund may use standardised and non-standardised (customised) derivative financial instruments for hedging purposes. It may conduct such transactions on a stock exchange or other regulated market open to the public, or directly with a bank or financial institution specialising in these types of business as counterparty (OTC trading). The base currency of the Target Fund is USD. At least 51% of the value of the Target Fund shall be invested in equities that are not shares of investment funds and that are listed or traded on a "regulated market" as defined in Directive 2004/39/EC of the European Parliament and of the Council of 21 April 2004 on markets in financial instruments. This Target Fund is only suitable for investors who are willing to accept these risks. The maximum amount of leverage for the Target Fund, calculated based on the commitment approach, is 200%. Investors should note that the Target Fund's investment exposure may also include Chinese A-shares traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect.</p>	<p><b>INVESTMENT OBJECTIVE OF THE TARGET FUND</b></p> <p>The investment objective of the Target Fund is to achieve high capital gains and a reasonable return, while giving due consideration to capital security and to the liquidity of assets.</p> <p><b>INVESTMENT POLICY OF THE TARGET FUND</b></p> <p>The Target Fund will invest at least 70% of its total net assets in equities and other equity interests in companies which are domiciled in or are chiefly active in the PRC and/or part of the Target Fund's benchmark. The majority of net assets are invested in Chinese A-shares. Chinese A-shares are RMB denominated shares of companies domiciled in mainland China (referred to as "A-shares"); these A-shares are traded on Chinese stock exchanges such as the SSE and the SZSE.</p> <p>The Target Fund promotes environmental and/or social characteristics and complies with article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("SFDR"). The portfolio manager utilizes a UBS ESG consensus score to identify issuers/companies for the investment universe with strong environmental and social performance characteristics, or a strong sustainability profile. This UBS ESG consensus score is a normalized weighted average of ESG score data from internal and recognized external providers. Rather than relying on an ESG score from a single provider, the consensus score approach increases conviction in the validity of the sustainability profile.</p> <p>The UBS ESG consensus score assesses sustainability factors, such as the performance of the relevant issuers/companies with reference to ESG aspects. These ESG aspects relate to the main areas in which the issuers/companies operate and their effectiveness in managing ESG risks. Environmental and social factors can include (amongst others) the following: environmental footprint and operational efficiency, environmental risk management, climate change, natural resource usage, pollution and waste management, employment standards and supply chain monitoring, human capital, diversity within the board of directors, occupational health and safety, product safety, as well as anti-fraud and anti-corruption guidelines.</p> <p>The Target Fund incorporates the following ESG promotion characteristics:</p> <ul style="list-style-type: none"> <li>• The Target Fund will aim to have a lower weighted average carbon intensity profile than the benchmark or a low absolute carbon profile.</li> <li>• The Target Fund aims to maintain a sustainability profile that is higher than its benchmark's sustainability profile or a minimum of 51% of assets invested in companies with sustainability profiles in the top half of the benchmark.</li> </ul> <p>The calculations do not take account of cash and unrated investment instruments.</p>

Prior Disclosure	Revised Disclosure
	<p>The Target Fund's benchmark is not designed to promote ESG characteristics. The portfolio manager may use discretion when constructing the portfolio and is not tied to the benchmark in terms of investment selection or weight. This means that the investment performance of the Target Fund may differ from the benchmark.</p> <p>With respect to the Target Fund's investments the portfolio manager includes ESG analysis by means of the UBS ESG consensus score (by number of issuer) for at least:-</p> <ul style="list-style-type: none"> <li>(i) 90% of the securities issued by large capitalisation companies domiciled in "developed" countries; and</li> <li>(ii) 75% of the securities issued by large capitalisation companies domiciled in "emerging" countries (by reference to the benchmark) and at least 75% for all other companies.</li> </ul> <p>The Target Fund may use standardised and non-standardised (customised) derivative financial instruments for hedging purposes. It may conduct such transactions on a stock exchange or other regulated market open to the public, or directly with a bank or financial institution specialising in these types of business as counterparty (OTC trading). The base currency of the Target Fund is USD.</p> <p>All or most of the investment in the PRC is intended to be made and held through:</p> <ul style="list-style-type: none"> <li>(i) the QFI investments registered with the QFI status of UBS Asset Management (Singapore) Ltd and/or UBS Asset Management (Hong Kong) Limited; and/or</li> <li>(ii) investments through Shanghai - Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect. On an ancillary basis the Company may also hold convertible bonds to get exposure to the Chinese market traded on the China Interbank Bond Market ("CIBM").</li> </ul> <p>The Target Fund may hold ancillary liquid assets within a limit of 20% of its net assets. The 20% limit shall only be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of shareholders. Liquid assets held to cover exposure to financial derivative instruments do not fall under this restriction. Bank deposits, money market instruments or money market funds that meet the criteria of Article 41(1) of the Law of 2010 are not considered to be included in the ancillary liquid assets under Article (2) b) of the Law of 2010. Ancillary liquid assets should be limited to bank deposits at sight, such as cash held in current accounts with a bank accessible at any time, in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets provided under Article 41(1) of the Law of 2010 or for a period of time strictly necessary in case of unfavourable market conditions. The Target Fund may not invest more than 20% of its net asset value in bank deposits at sight made with the same body.</p> <p>A detailed description of the risks connected with an investment in the Target Fund is given under the "Risks of the Target Fund" section in this Information Memorandum.</p> <p>The maximum amount of leverage for the Target Fund, calculated based on the commitment approach, is 100%.</p>

Prior Disclosure	Revised Disclosure
	<p>Investors should note that the Target Fund's investment exposure may also include Chinese A-shares traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect.</p> <p><b>ESG Integration</b></p> <p>ESG integration is driven by taking into account material ESG risks as part of the research process. ESG integration enables the Target Fund Manager to identify financially relevant sustainability factors that impact investment decisions and to incorporate ESG considerations when implementing investment decisions, and allows ESG risks to be systematically monitored and compared to risk appetite and constraints. It also assists in portfolio construction through securities selection, investment conviction and portfolio weightings.</p> <p>For corporate issuers, this process utilizes an internal UBS ESG material issues framework which identifies the financially relevant factors per sector that can impact investment decisions. This orientation toward financial materiality ensures that analysts focus on sustainability factors that can impact the financial performance of the company and therefore investment returns. ESG integration can also identify opportunities for engagement to improve the company's ESG risk profile and thereby mitigate the potential negative impact of ESG issues on the company's financial performance. The Target Fund Manager employs an internal UBS ESG risk dashboard that combines multiple internal and external ESG data sources in order to identify companies with material ESG risks. An actionable risk signal highlights ESG risks to the Target Fund Manager for incorporation in their investment decision making process.</p> <p>For non-corporate issuers, the Target Fund Manager applies a qualitative or quantitative ESG risk assessment that integrates data on material ESG factors.</p> <p>The analysis of material sustainability/ESG considerations can include many different aspects, such as the following among others: the carbon footprint, health and well-being, human rights, supply chain management, fair customer treatment and governance.</p> <p><b>Sustainability Exclusion Policy</b></p> <p>The Sustainability Exclusion Policy of the Target Fund Manager outlines the exclusions applied to the investment universe of the financial product. The link to the Sustainability Exclusion Policy can be found in the link below:  <a href="https://www.ubs.com/global/en/asset-management/investment-capabilities/sustainability.html">https://www.ubs.com/global/en/asset-management/investment-capabilities/sustainability.html</a></p> <p>The Target Fund issues several share classes and may issue new share classes with different features and requirements in future. The Fund will have full discretion to decide on share class of the Target Fund to invest and may switch to different share class of the Target Fund. Such decision will be made in the best interest of investors. Investors should note that the investment objective, investment strategy and risk profile of the Fund remain the same regardless the investment of the Fund in different share class of the Target Fund.</p>

Prior Disclosure						Revised Disclosure																																									
<p><b>Exposure to securities financing transactions</b></p> <p>The Target Fund's exposure to total return swaps, repurchase agreements/reverse repurchase agreements and securities lending transactions is set out below (in each case as a percentage of net asset value):</p> <table border="1"> <thead> <tr> <th colspan="2">Total Return Swaps</th> <th colspan="2">Repurchase Agreements / Reverse Repurchase Agreements</th> <th colspan="2">Securities Lending</th> </tr> <tr> <th>Expected</th> <th>Maximum</th> <th>Expected</th> <th>Maximum</th> <th>Expected</th> <th>Maximum</th> </tr> </thead> <tbody> <tr> <td>0%-10%</td> <td>50%</td> <td>0%</td> <td>100%</td> <td>0%-50%</td> <td>100%</td> </tr> </tbody> </table> <p><b>Short selling</b></p> <p>Short selling can involve greater risk than investment based on a long position. A short sale of a security involves the risk of a theoretically unlimited increase in the market price of the security, which could result in an inability to cover the short position and a theoretical loss up to the whole investment in the Target Fund.</p>						Total Return Swaps		Repurchase Agreements / Reverse Repurchase Agreements		Securities Lending		Expected	Maximum	Expected	Maximum	Expected	Maximum	0%-10%	50%	0%	100%	0%-50%	100%	<p><b>Exposure to securities financing transactions</b></p> <p>The Target Fund's exposure to total return swaps, repurchase agreements/reverse repurchase agreements and securities lending transactions is set out below (in each case as a percentage of net asset value):</p> <table border="1"> <thead> <tr> <th colspan="2">Total Return Swaps</th> <th colspan="2">Repurchase Agreements / Reverse Repurchase Agreements</th> <th colspan="2">Securities Lending</th> </tr> <tr> <th>Expected</th> <th>Maximum</th> <th>Expected</th> <th>Maximum</th> <th>Expected</th> <th>Maximum</th> </tr> </thead> <tbody> <tr> <td>0%</td> <td>15%</td> <td>0%</td> <td>25%</td> <td>0% - 40%</td> <td>60%</td> </tr> </tbody> </table> <p><b>&lt;Removed&gt;</b></p>						Total Return Swaps		Repurchase Agreements / Reverse Repurchase Agreements		Securities Lending		Expected	Maximum	Expected	Maximum	Expected	Maximum	0%	15%	0%	25%	0% - 40%	60%

<p><b>Collateral Management</b></p> <p>If the Company enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Company enters into forwards contracts, OTC options or uses other OTC derivative techniques, it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security ("collateral", see above).</p> <p>Collateral may be provided in the form of liquid assets in highly liquid currencies, highly liquid equities and first- class government bonds. The Company will only accept such financial instruments as collateral that would allow it (after objective and appropriate valuation) to liquidate them within an appropriate time period. The Company, or a service provider appointed by the Company, must value the value of the collateral at least once a day. The value of the collateral must be higher than the value of the position of the respective OTC counterparty. However, this value may fluctuate between two consecutive valuations.</p> <p>After each valuation, however, it is ensured (where appropriate by calling additional collateral) that the collateral is increased by an amount sufficient to reach the value of the respective OTC counterparty's exposure (mark-to-market). In order to adequately take into account the risks related to the collateral in question, the Company determines whether the value of the collateral to be received should be increased, or whether the value of the collateral received is to be cut by an appropriate, conservatively measured amount (haircut). The larger the collateral's value may fluctuate, the higher the haircut must be.</p>						<p><b>Collateral Management</b></p> <p>If the Company enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Company enters into forwards contracts, OTC options or uses other OTC derivative techniques, it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security ("collateral", see above).</p> <p>Collateral may be provided in the form of liquid assets in highly liquid currencies, highly liquid equities and first- class government bonds. The Company will only accept such financial instruments as collateral that would allow it (after objective and appropriate valuation) to liquidate them within an appropriate time period. The Company, or a service provider appointed by the Company, must value the value of the collateral at least once a day. The value of the collateral must be higher than the value of the position of the respective OTC counterparty. However, this value may fluctuate between two consecutive valuations.</p> <p>After each valuation, however, it is ensured (where appropriate by calling additional collateral) that the collateral is increased by an amount sufficient to reach the value of the respective OTC counterparty's exposure (mark-to-market). In order to adequately take into account the risks related to the collateral in question, the Company determines whether the value of the collateral to be received should be increased, or whether the value of the collateral received is to be cut by an appropriate, conservatively measured amount (haircut). The larger the collateral's value may fluctuate, the higher the haircut must be.</p> <p>The Company shall set up internal regulations determining the details of the above-mentioned requirements and values, particularly regarding the types of collateral accepted, the amounts to be added to and subtracted from the respective collateral, and the investment policy for liquid funds that are deposited as collateral. This framework agreement is reviewed and adapted where appropriate by the Company on a regular basis.</p>

<p><b>Leverage</b></p> <p>For the purpose of the Target Fund's Prospectus, "leverage" means any method by which the exposure of the Company or the Target Fund is increased through borrowing of cash or securities, or leverage embedded in derivative position or by any other means. The Company may employ external funds within the framework of the maximum permissible leverage of the Target Fund. The profit and loss potential is thereby increased, meaning that the value appreciation of these investments leads to the Company's net assets growing more quickly than would have been the case without leverage. Conversely, a decrease in value causes the Company's assets to fall more quickly than without leverage.</p> <p>The maximum permitted amount of the leverage that can be built up by the Target Fund and which is calculated using the commitment approach can be found in the investment policy of the Target Fund.</p>	<p>the following countries: US, Japan, UK, Germany and Switzerland.</p> <p>Collateral that is deposited in the form of liquid funds may be invested by the Company. Investments may only be made in: sight deposits or deposits at notice in accordance with point 1.1(f) of the section entitled "Permitted investments of the Company"; high-quality government bonds; repurchase agreements within the meaning of the section entitled "Special techniques and instruments relating to transferable securities and money market instruments", provided the counterparty in such transactions is a credit institution within the meaning of point 1.1(f) of the section entitled "Permitted investments of the Company" and the Company has the right to cancel the transaction at any time and to request the back transfer of the amount invested (including accrued interest); short-term money market funds within the meaning of CESR Guidelines 10-049 regarding the definition of European money market funds. The restrictions listed in the previous paragraph also apply to the spreading of concentration risk. Bankruptcy and insolvency events or other credit events with the Depository or within their sub-custodian/correspondent bank network may result in the rights of the Company in connection with the security to be delayed or restricted in other ways. If the Company is owed a security pursuant to an applicable agreement, then any such security is to be transferred to the OTC counterparty as agreed between the Company and the OTC counterparty. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depository or within their sub-custodian/correspondent bank network may result in the rights or recognition of the Company in connection with the security to be delayed, restricted or even eliminated, which would go so far as to force the Company to fulfil its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.</p> <p><b>Leverage</b></p> <p>The maximum permitted amount of the leverage that can be built up by the Target Fund and which is calculated using the commitment approach can be found in the section entitled "Investment policy of the Target Fund".</p>

	<p>federation, or by a public international institution of which at least one Member State is a member;</p> <ul style="list-style-type: none"> <li>• issued by an undertaking whose securities are traded on the regulated markets listed under point 1.1(a), (b) and (c);</li> <li>• issued or guaranteed by an institution subject to prudential supervision in accordance with the criteria laid down in community law, or by an institution subject to supervision that, in the opinion of the CSSF, is at least as stringent as that provided for in community law, and that complies with community law; or</li> <li>• issued by other issuers belonging to a category approved by the CSSF, provided that regulations protecting investors that are equivalent to those in the first, second or third points above apply to investments in these instruments, and provided that the issuers constitute either a company with equity capital amounting to at least 10 million euro (EUR 10,000,000) that prepares and publishes its annual accounts in accordance with Directive 2013/34/EU of the European Parliament and of the Council, or an entity within a group encompassing one or more listed companies and responsible for its financing, or an entity which is to fund the securitisation of liabilities by means of a credit line provided by a bank.</li> </ul> <p>1.2 In derogation of the investment restrictions set out in point 1.1, the Target Fund may invest up to 10% of its net assets in securities and money market instruments other than those named in point 1.1.</p> <p>1.3 The Company ensures that the overall risk associated with derivatives does not exceed the overall net value of the Company portfolio. As part of its investment strategy, the Target Fund may invest in derivatives within the limits set out in points 2.2 and 2.3, provided the overall risk of the underlying instruments does not exceed the investment limits stipulated in point 2.</p> <p>1.4 The Target Fund may hold liquid assets on an ancillary basis.</p> <p><b>2. Risk diversification</b></p> <p>2.1 In accordance with the principle of risk diversification, the Company is not permitted to invest more than 10% of the net assets of the Target Fund in securities or money market instruments from a single institution. The Company may not invest more than 20% of the net assets of the Target Fund in deposits with a single institution. In transactions by the Target Fund in OTC derivatives, counterparty risk must not exceed 10% of the assets of the Target Fund if the counterparty is a credit institution as defined in point 1.1(f). The maximum allowable counterparty risk is reduced to 5% in transactions with other counterparties. The total value of all positions in the securities and money market instruments of those institutions that account for more than 5% of the net assets of the Target Fund may not exceed 40% of the net assets of the Target Fund. This restriction does not apply to deposits and transactions in OTC derivatives with financial institutions which are subject to prudential supervision.</p>

Prior Disclosure	Revised Disclosure
	<p>2.2 Regardless of the maximum limits set out in point 2.1, the Target Fund may not invest more than 20% of its net assets in a single institution through a combination of:</p> <ul style="list-style-type: none"> <li>• securities and money market instruments issued by this institution;</li> <li>• deposits with this institution; and/or</li> <li>• OTC derivatives traded with this institution.</li> </ul> <p>2.3 In derogation of the above, the following applies:</p> <p>(a) The maximum limit of 10% mentioned in point 2.1 is raised to 25% for certain bonds which fall under the definition of covered bonds in point (1) of Article 3 of Directive (EU) 2019/2162 of the European Parliament and of the Council and for bonds that were issued before 8 July 2022 by credit institutions domiciled in an EU member state and subject, in that particular country, to special prudential supervision by public authorities designed to protect the holders of these instruments. In particular, funds originating from the issue of such bonds issued before 8 July 2022 must, in accordance with the law, be invested in assets that provide sufficient cover for the obligations arising from them during the entire term of the bonds and that provide a preferential right to payment of the capital and interest in the event of insolvency of the issuer. If the Target Fund invests more than 5% of its net assets in bonds of a single issuer, then the total value of these investments may not exceed 80% of the value of the net assets of the Target Fund.</p> <p>(b) The maximum limit of 10% is raised to 35% for securities or money market instruments issued or guaranteed by an EU member state or its local authorities, by another approved state, or by public international bodies of which one or more EU member states are members. Securities and money market instruments that come under the special ruling referenced in point 2.3(a) and (b) are not accounted for in calculating the aforementioned 40% maximum limit pertaining to risk diversification.</p> <p>(c) The limits set out in points 2.1, 2.2, 2.3(a) and (b) may not be aggregated; therefore, the investments listed in these paragraphs made in securities or money market instruments of a single issuing institution, or in deposits with that institution or derivatives thereof, may not exceed 35% of the net assets of the Target Fund.</p> <p>(d) Companies belonging to the same group for the purposes of consolidated accounts, as defined by Council Directive 83/349/EEC or recognised international accounting rules, must be treated as a single issuer for the calculation of the investment limits set out in this section. However, investments by the Target Fund in securities and money market instruments of a single corporate group may total up to 20% of the assets of the Target Fund.</p> <p>(e) In the interest of risk diversification, the Company is authorised to invest up to 100% of the Target Fund's net assets in securities and money market instruments from various issues that are guaranteed or issued by an EU member state or its local authorities, another authorised OECD member state, China, Russia, Brazil, Indonesia or Singapore, or by public international bodies of which one or more EU member states are members. These securities and money market instruments must be divided into at least six different issues, with securities</p>

<p>transactions entered into with the aim to hedge a share class with a specific reference currency against fluctuations relative to reference currency of the Target Fund it relates to. The Company may also purchase the currency concerned through a cross transaction (entered into through the same counterpart) should the cost thereof be more advantageous. Contracts or currencies must either be quoted on a stock exchange or dealt in on a regulated market, except that the Company may enter into currency forward contracts or currency swap arrangements with highly rated financial institutions specialising in this type of transactions.</p> <p>13. The Company may not deal, with respect to the Target Fund, in financial futures, except that:</p> <ul style="list-style-type: none"> <li>a) for the purpose of hedging the risk of the fluctuation of the value of its portfolio securities the Target Fund may have outstanding commitments in respect of financial futures sales contracts not exceeding the corresponding risk of fluctuation of the value of the corresponding portion of the Target Fund's portfolio;</li> <li>b) for the purpose of efficient portfolio management the Company, with respect to the Target Fund, may enter into financial futures purchase contracts, provided that sufficient cash, short dated debt securities or instruments (other than the liquid assets which might have to be held by the Target Fund pursuant to restriction 11c) above), or securities to be disposed of at a predetermined value exist to match the underlying exposure of any such futures positions.</li> </ul> <p>14. The Company may not deal in index options except that:</p> <ul style="list-style-type: none"> <li>a) for the purpose of hedging the risk of the fluctuation of the securities portfolio of the Target Fund, the Company may sell call options on stock indexes or acquire put options on stock indexes. In such event the value of the underlying securities included in the relevant stock index option shall not exceed, together with outstanding commitments in financial futures contracts entered into for the same purpose, the aggregate value of the portion of the securities portfolio to be hedged; and</li> <li>b) for the purpose of the efficient management of the securities portfolio of the Target Fund, the Company may acquire call options on stock indexes, provided the value of the underlying securities included in the relevant stock index options is covered by cash, short dated debt securities and instruments (other than the liquid assets which might have to be held by the Company pursuant to restrictions 11c) and 11b) or securities to be disposed of at predetermined prices; provided however that the aggregate acquisition cost (in terms of premiums paid) of options on securities and index options purchased by the Company shall not exceed 15 % of the net assets of the Target Fund at the time of purchase of such options.</li> </ul> <p>15. The Target Fund may also subscribe for, acquire and/or hold shares issued or to be issued by one or more other sub-funds of the Company subject to additional requirements which may be specified in the sales documents, if:</p> <ul style="list-style-type: none"> <li>a) the target sub-fund does not, in turn, invest in the Target Fund invested in this target sub-fund; and</li> <li>b) no more than 10% of the assets of the target sub-funds whose acquisition is contemplated may, pursuant to</li> </ul>	

Prior Disclosure	Revised Disclosure																		
<p>their articles of incorporation, be invested in aggregate in units/shares of other target sub-funds of the same Undertakings for Collective Investment; and</p> <p>c) voting rights, if any, attaching to the relevant securities are suspended for as long as they are held by the Target Fund; and</p> <p>d) in any event, for as long as these securities are held by the Target Fund, their value will not be taken into consideration for the purposes of verifying the minimum threshold of the net assets imposed by the Law of 2010; and</p> <p>e) there is no duplication of management/subscription or redemption fees between those at the level of the Target Fund having invested in the target sub-fund, and this target sub-fund.</p> <p>The Company may enter into the transactions referred to under 11) to 14) above only if these transactions concern contracts which are traded on a regulated market operating regularly, being recognised and open to the public. However, with respect to options referred to under 11), 13) and 14) above, the Company may enter into OTC option transactions with first class financial institutions participating in this type of transactions if such transactions are more advantageous to the Company or if quoted options having the required features are not available.</p> <p>If the above percentages are exceeded for reasons beyond the control of the Company as a result of the exercise of subscription rights, the Company must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interests of the Company's shareholders.</p>

<p>&lt;N/A&gt;</p>	<p><b>Suspension of Calculation of Net Asset Value of the Target Fund</b></p> <p>The Company is authorised to temporarily suspend the calculation of the net asset value and the issue, redemption and conversion of the shares of any class of the Target Fund and the Target Fund in the following circumstances:</p> <ul style="list-style-type: none"> <li>(a) during any period when any of the stock exchanges or other markets on which the valuation of a significant and substantial part of any of the investments of the Company attributable to the Target Fund from time to time is based, or any of the foreign-exchange markets in whose currency the net asset value any of the investments of the Company attributable to the Target Fund from time to time or a significant portion of them is denominated, are closed except on customary bank holidays or during which trading and dealing on any such markets is suspended or restricted or if such markets are temporarily exposed to severe fluctuations, provided that such restriction or suspension affects the valuation of the investments of the Company attributable to the Target Fund quoted thereon;</li> <li>(b) during the existence of any state of affairs which constitutes an emergency in the opinion of the board of directors of the Company as a result of which disposal or valuation of assets owned by the Company attributable to the Target Fund would be impracticable;</li> <li>(c) during any breakdown in the means of communication or computation normally employed in determining the price or value of any of the investments of the Target Fund or the current price or value on any stock exchange or other market in respect of the assets attributable the Target Fund;</li> <li>(d) during any period when the Company is unable to repatriate funds for the purpose of making payments on the redemption of shares of the Target Fund, or during which any transfer of funds involved in the realisation or acquisition of investments or payments due on redemption of shares cannot, in the opinion of the board of directors of the Company, be effected at normal rates of exchange;</li> <li>(e) if political, economic, military or other circumstances beyond the control or influence of the Company make it impossible to access the Company's assets under normal conditions without seriously harming the interests of the shareholders;</li> <li>(f) when for any other reason, the prices of any investments owned by the Company attributable to the Target Fund, cannot promptly or accurately be ascertained;</li> <li>(g) upon the publication of a notice convening a general meeting of shareholders for the purpose of the liquidation of the Company;</li> <li>(h) to the extent that such suspension is justified by the necessity to protect the shareholders, upon publication of a notice convening a general meeting of shareholders</li> </ul>

Prior Disclosure	Revised Disclosure
	<p>for the purpose of the merger of the Company or one or more of its sub-funds, or upon publication of a notice informing the shareholders of the decision of the of the Company to merge one or more sub-fund(s); and</p> <p>(i) when restrictions on foreign exchange transactions or other transfers of assets render the execution of the Company's transactions impossible.</p> <p>In addition, the Company is empowered:</p> <p>(a) to refuse subscription applications at its own discretion;</p> <p>(b) to compulsorily redeem shares at any time which were subscribed to or purchased in defiance of an exclusion order.</p> <p><b>This Information Memorandum describes the features of the Target Fund in accordance with the Target Fund Prospectus and we recommend that this Information Memorandum should be read in conjunction with the Target Fund Prospectus which is available at the business address of the Manager. We take all reasonable efforts to ensure the accuracy of the disclosure in this Information Memorandum in relation to the Target Fund, including obtaining the confirmation from the Management Company. However, in the event of any inconsistency or ambiguity in relation to the disclosure, including any word or phrase used in this Information Memorandum regarding the Target Fund as compared to the Target Fund Prospectus, the Target Fund Prospectus shall prevail.</b></p>

**10) Inclusion of Risk of the Fund and the Target Fund**

Prior Disclosure	Revised Disclosure
<p><b>GENERAL RISK OF THE FUND</b></p> <p>&lt;N/A&gt;</p>	<p><b>GENERAL RISK OF THE FUND</b></p> <p><b>Suspension of repurchase request risk</b>  Having considered the best interests of Unit Holders, the repurchase requests by the Unit Holders may be subject to suspension due to exceptional circumstances, where the market value or fair value of a material portion of the Fund's assets cannot be determined, or such other circumstances as may be determined by the Manager, where there is good and sufficient reason to do so. Such exceptional circumstances may include, amongst other, suspension of dealing by the Target Fund. In such case, Unit Holders will not be able to redeem their Units and will be compelled to remain invested in the Fund for a longer period of time. Hence, their investments will continue to be subject to the risks inherent to the Fund.</p> <p><b>Related party transaction risk</b>  The Fund may also have dealings with parties related to AHAM. Nevertheless, it is our policy that all transactions with related parties are to be executed on terms which are best available to the Fund and which are not less favourable to the Fund than an arm's length transaction between independent parties.</p>

Prior Disclosure	Revised Disclosure
	<p><b>RISK OF THE TARGET FUND</b></p> <p><b>Liquidity Risk</b>  The Target Fund may invest in certain securities that subsequently become difficult to sell because of reduced liquidity which may have an adverse impact on their market price and consequently the net asset value of the Target Fund. Reduced liquidity for such securities may be driven by unusual or extraordinary economic or market events, such as the deterioration in the creditworthiness of an issuer or the lack of efficiency of a given market. In extreme market situations, there may be few willing buyers and the investments cannot be readily sold at the desired time or price, and the Target Fund may have to accept a lower price to sell the investments or may not be able to sell the investments at all. Trading in particular securities or other instruments may be suspended or restricted by the relevant exchange or by a governmental or supervisory authority and the Target Fund may incur a loss as a result. An inability to sell a portfolio position can adversely affect the Target Fund's value or prevent the Target Fund from being able to take advantage of other investment opportunities. To meet redemption requests, the Target Fund may be forced to sell investments at an unfavorable time and/or conditions.</p> <p><b>ESG Risks</b>  A "sustainability risk" means an environmental, social or governance event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment. If a sustainability risk associated with an investment materialises, it could lead to the loss in value of an investment.</p> <p><b>Bonds</b>  Bonds are subject to both actual and perceived measures of creditworthiness. Bonds could be affected by adverse publicity and investor perception, which may not be based on fundamental analysis, and would have a negative effect on the value and liquidity of the bond.</p> <p><b>China market risk</b>  Investing in the securities markets in the PRC is subject to the risks of investing in emerging markets generally and the risks specific to the PRC market. Many of the PRC economic reforms are unprecedented or experimental and are subject to adjustment and modification, and such adjustment and modification may not always have a positive effect on foreign investment in joint stock companies in the PRC or in listed securities such as Chinese A-shares.</p> <p>The Target Fund is not a bank deposit and is not guaranteed. There is no guarantee of the repayment of the principal investment. The profitability of the investments of the Target Fund could be adversely affected by a worsening of general economic conditions in the PRC or global markets. Factors such as PRC government policy, fiscal policy, interest rates, inflation, investor sentiment, the availability and cost of credit, the liquidity of the PRC financial markets and the level and volatility of equity prices could significantly affect the value of the Target Fund's underlying investments and thus the share price.</p> <p>The choice of A-shares currently available to the Target Fund Manager may be limited as compared with the choice available in other markets. There may also be a lower level of liquidity in the A-share markets, which are relatively smaller in terms of both combined total market value and the number of shares which are available for investment as compared with other markets. This could potentially lead to severe price volatility.</p>

Prior Disclosure	Revised Disclosure
	<p>The national regulatory and legal framework for capital markets and joint stock companies in the PRC are still developing when compared with those of developed countries. However, the effects of such reform on the A-share market as a whole remain to be seen. In addition, there is a relatively low level of regulation and enforcement activity in these securities markets. Settlement of transactions may be subject to delay and administrative uncertainties. Further, regulations continue to develop and may change without notice which may further delay redemptions or restrict liquidity. There may not be regulation and monitoring of the Chinese securities markets and activities of investors, brokers and other participants equivalent to that in certain more developed markets.</p> <p>PRC companies are required to follow PRC accounting standards and practice which, to a certain extent, follow international accounting standards. However, there may be significant differences between financial statements prepared by accountants following PRC accounting standards and practice and those prepared in accordance with international accounting standards.</p> <p>Both the Shanghai and Shenzhen securities markets are in the process of development and change. This may lead to trading volatility, difficulty in the settlement and recording of transactions and difficulty in interpreting and applying the relevant regulations. The PRC government has been developing a comprehensive system of commercial laws and considerable progress has been made in the promulgation of laws and regulations dealing with economic matters such as corporate organization and governance, foreign investment, commerce, taxation and trade. Because these laws, regulations and legal requirements are relatively recent, their interpretation and enforcement involve uncertainties. In addition, the PRC laws for investor protection are still in developing stage and may be less sophisticated than those in developed countries.</p> <p>Investments in the PRC will be sensitive to any significant change in political, social or economic policy in the PRC. Such sensitivity may, for the reasons specified above, adversely affect the capital growth and thus the performance of these investments.</p> <p>The PRC government's control of currency conversion and future movements in exchange rates may adversely affect the operations and financial results of the companies invested in by the Target Fund. In light of the above mentioned factors, the price of A-shares may fall significantly in certain circumstances.</p> <p><b>QFI risk</b></p> <p><b>QFII / QFI investment</b></p> <p>Under the prevailing regulations in the PRC, foreign investors can invest in the A-share market and other QFI permissible securities through institutions that have obtained qualified status such as QFI status in the PRC. The current QFI regulations impose strict restrictions (such as investment guidelines) on A-share investments.</p> <p>The Target Fund is not a QFI, but may invest directly in A-shares and other QFI permissible securities via the QFI status of the Target Fund Manager. All or most of the Target Fund's investments in the PRC will be made and held through the QFI status of UBS Asset Management (Singapore) Ltd. and/or UBS Asset Management (Hong Kong) Limited.</p> <p>Potential investors should note that there is no guarantee that the Target Fund will continue to benefit from the QFI status of</p>

Prior Disclosure	Revised Disclosure
	<p>the Target Fund Manager nor that it will be made exclusively available to the Target Fund.</p> <p>The Target Fund Manager has assumed dual roles as the Target Fund Manager of the Target Fund and a qualified QFI. The Target Fund Manager will ensure all transactions and dealings will be dealt with having regard to the constitutive documents of the Target Fund as well as the relevant laws and regulations applicable to the Target Fund Manager. In the event that conflicts of interest arise, the Company will in conjunction with the Depositary and PRC Sub-Custodian (as defined below) seek to ensure that the Target Fund is managed in the best interests of shareholders and the shareholders are treated fairly.</p> <p>Should the Target Fund Manager lose its QFI status or retire or be removed, the Target Fund may not be able to invest in A-shares or other QFI permissible securities through the Target Fund Manager's QFI status, and the Target Fund may be required to dispose of its holdings, which would likely have a material adverse effect on the Target Fund.</p> <p><b>QFI Regulations</b></p> <p>The QFI regulations which regulate investments by QFIs in the PRC and the repatriation and currency conversion are relatively new. The application and interpretation of the QFI regulations are therefore relatively untested and there is uncertainty as to how they will be applied. The China Securities Regulatory Commission ("CSRC") and the PRC State Administration of Foreign Exchange ("SAFE") have been given wide discretions in the QFI regulations and there is no precedent or certainty as to how these discretions might be exercised now or in the future. At this stage of early development, the QFI regulations may be subject to further revisions in the future. There is no assurance whether such revisions will prejudice the QFI, or whether the rules governing QFI status may be revised substantially or entirely.</p> <p>There are rules and restrictions under current QFI regulations including rules on investment restrictions. Transaction sizes for QFII / QFIs are large and there can be restrictions on repatriation of principal invested by a QFI in the PRC due to foreign exchange control and other related rules and policies.</p> <p>In extreme circumstances, the Target Fund may incur significant loss due to limited investment capabilities or may not be able to fully implement or pursue its investment objectives or strategy, due to QFI investment restrictions, illiquidity of the A-share/bond market, and/or delay or disruption in execution of trades or in settlement of trades.</p> <p>Investors should also note that direct investments in A-shares through QFI are subject to compliance with various investment restrictions currently imposed under QFI regulations in the PRC, as amended from time to time, which are applied on each QFI and which will affect the ability of the Target Fund to invest in A-shares. Examples are as follows:</p> <ul style="list-style-type: none"> <li>• the shareholding of a single qualified foreign investor or any other foreign investor must not exceed 10% of the total shares of an exchange-listed or a NEEQ -admitted company;</li> <li>• the aggregate shareholding of all qualified foreign investors and other foreign investors must not exceed 30% of the total shares of an exchange-listed or a NEEQ-admitted company; and</li> <li>• the investments should comply with the requirements as set out in the Guidance Catalogue on Industries for Foreign Investment.</li> </ul> <p><b>PRC Broker</b></p>

Prior Disclosure	Revised Disclosure
	<p>The Target Fund Manager as QFI will also select brokers ("PRC Brokers") to execute transactions for the Target Fund in the PRC markets. The Target Fund may incur losses due to the acts or omissions of the PRC Brokers or the PRC custodian in the execution or settlement of any transaction or in the transfer of any funds or securities. The Target Fund will use PRC Brokers appointed by the Target Fund Manager to execute transactions in the PRC markets for the account of the Target Fund. The Target Fund may have difficulty in obtaining best execution of transactions in QFI permissible securities subject to restriction/limitations under applicable QFI regulations or operational constraints such as the restriction/limitation as to the number of brokers that the Target Fund Manager as QFI may appoint. If a PRC Broker offers the Target Fund standards of execution which the Target Fund Manager reasonably believes to be amongst best practice in the PRC marketplace, the Target Fund Manager may determine that they should consistently execute transactions with that PRC Broker (including where it is an affiliate) notwithstanding that they may not be executed at the best price and shall have no liability to account to the Target Fund in respect of the difference between the price at which the Target Fund executes transactions and any other price that may have been available in the market at that relevant time.</p> <p><b>Custody</b></p> <p>The Depositary acts as the depositary of the Target Fund and holds the assets. The QFI on behalf of the Target Fund and the Depositary will appoint a sub-custodian for the Target Fund (the "PRC Sub-Custodian"), where the PRC Sub-Custodian will hold the assets of Target Fund invested in the PRC through the QFI registration of the Target Fund Manager.</p> <p>Any QFI permissible securities acquired by the Target Fund through a QFI status of the Target Fund Manager will be maintained by the PRC Sub-Custodian in separate securities account(s) and will be registered for the sole benefit and use of the Target Fund or the Company (on behalf of the Target Fund) subject to applicable laws. There will be segregation of assets by the PRC Sub-Custodian such that the assets of the Target Fund will not form part of the assets of the Target Fund Manager as QFI, the PRC Sub-Custodian, or the PRC Brokers. However, subject to the investment regulations, the Target Fund Manager (as QFI) could be the party entitled to the securities in such securities account(s) (albeit that this entitlement does not constitute an ownership interest or preclude the Target Fund Manager purchasing the securities on behalf of the Target Fund), such securities may be vulnerable to a claim by a liquidator of the Target Fund Manager and may not be as well protected as if they were registered solely in the name of the Target Fund. In particular, there is a risk that creditors of the Target Fund Manager may incorrectly assume that the Target Fund's assets belong to the Target Fund Manager and such creditors may seek to gain control of the Target Fund's assets to meet the Target Fund Manager's liabilities owed to such creditors.</p> <p>Investors should note that cash deposited in the cash account of the Target Fund with the PRC Sub-Custodian may not be segregated but may be a debt owing from the PRC Sub-Custodian to the Target Fund as a depositor. Such cash will be co-mingled with cash belonging to other clients of the PRC Sub-Custodian. In the event of bankruptcy or liquidation of the PRC Sub-Custodian, the Target Fund will not have any proprietary rights to the cash deposited in such cash account, and the Target Fund could become an unsecured creditor, ranking pari passu with all other unsecured creditors of the</p>

Prior Disclosure	Revised Disclosure
	<p>PRC Sub-Custodian. The Target Fund may face difficulty and/or encounter delays in recovering such debt, or may not be able to recover it in full or at all, in which case the Target Fund will suffer losses.</p> <p><b>Limits on Redemption</b></p> <p>Where the Target Fund is invested in the securities market in the PRC by investing through a QFI status of the Target Fund Manager, the repatriation of invested principal and income from the PRC will be subject to the QFI regulations in effect from time to time including any regulatory requirements applicable to (including but not limited to) procedures on repatriation.</p> <p>Transfers and repatriations for the account of the Target Fund may be made on a daily basis by the PRC Sub-Custodian through the QFI status of the portfolio manager or investment advisor to meet the net subscriptions and redemptions of shares of the Target Fund.</p> <p>Please note that there is no certainty that there will be no regulatory restrictions in the PRC on the repatriation of monies by the Target Fund in future. The investment regulations and/or the approach adopted by the SAFE in relation to the repatriation of monies may change from time to time. No guarantee can be given that redemption orders can be processed in a timely manner in the event of adverse changes in relevant laws or regulations, including changes in QFI repatriation restrictions. Such restrictions may result in the suspension of the Target Fund's trading activities.</p> <p><b>Investment Restrictions</b></p> <p>Since there are limits on the total shares held by all underlying investors and/or all QFI holders in one PRC listed company under the QFI regulations, the capacity of the Target Fund to make investments in A-shares will be affected by the activities of all underlying investors and/or all QFI holders.</p> <p>The abovementioned investment restrictions will be applied to all underlying investors and/or all QFI holders. Therefore, it will be difficult in practice for the Target Fund Manager, as a QFI, to monitor the investments of the underlying investors of the Target Fund since an investor may make investment through different QFI. It is also practically difficult for the Target Fund Manager to monitor the investments made by other QFIs.</p> <p><b>Disclosure of Interests and Short Swing Profit Rule</b></p> <p>Under the PRC disclosure of interest requirements, the Target Fund may be deemed to be acting in concert with other funds or sub-funds managed within the Target Fund Manager's group or a substantial shareholder of the Target Fund Manager's group and therefore may be subject to the risk that the Target Fund's holdings may have to be reported in aggregate with the holdings of such other funds or sub-funds mentioned above should the aggregate holding triggers the reporting threshold under the PRC law, currently being 5% of the total issued shares of the relevant PRC listed company. This may expose the Target Fund's holdings to the public with an adverse impact on the performance of the Target Fund.</p> <p>In addition, subject to the interpretation of PRC courts and PRC regulators, the operation of the PRC short swing profit rule may be applicable to the Target Fund's investments with the result that where the holdings of the Target Fund (possibly with the holdings of other investors deemed as concert parties of the Target Fund) exceed 5% of the total issued shares of a PRC listed company, the Target Fund may not reduce its holdings in such company within six months of the last purchase of shares of such company. If the Target Fund violates the rule and sells any of its holdings in such company in the six month period, it may be required by the listed</p>

Prior Disclosure	Revised Disclosure
	<p>company to return any profits realised from such trading to the listed company. Moreover, under PRC civil procedures, the Target Fund's assets may be frozen to the extent of the claims made by such company. These risks may greatly impair the performance of the Target Fund.</p> <p><b>Liquidity risk</b></p> <p>The small size of some of the stock markets through which the Target Fund will invest may result in significant price volatility and a potential lack of liquidity.</p> <p>RMB denominated debt instruments are not regularly traded and may have lower trading volumes than other more developed markets. An active secondary market for these instruments is yet to be developed. The bid and offer spread of the price of RMB denominated debt instruments may be large and the Target Fund may incur significant trading and realisation costs.</p> <p><b>Low level of monitoring risk</b></p> <p>The regulatory framework of stock markets within the PRC is still developing when compared with many of the world's leading stock markets and accordingly there may be a lower level of monitoring of the activities of such stock markets.</p> <p><b>Accounting standards and disclosure risk</b></p> <p>Accounting, auditing and financial reporting standards in the PRC may be less rigorous than international standards. As a result, certain material disclosures may not be made by some companies.</p> <p><b>Currency risk of the RMB</b></p> <p>As the currency of account of the Target Fund is USD, the Target Fund will be directly exposed to any fluctuation in the exchange rate between USD and RMB.</p> <p>In this scenario, the Target Fund invests primarily in securities denominated in RMB but its net asset value, subscription and redemption will be quoted in USD. Accordingly, a change in value of RMB against USD will result in a corresponding change in the USD net asset value of the Target Fund. For the purposes of investment through QFII / QFI, RMB are exchangeable into USD at prevailing market rates.</p> <p>The PRC government's control of currency exposure and future movements in exchange rates may adversely affect the operations and financial results of companies invested in by the Target Fund. RMB is not a freely convertible currency and it is subject to foreign exchange control policies of and repatriation restrictions imposed by the PRC government. If such policies or restrictions change in the future, the position of the Target Fund or its investors may be adversely affected.</p> <p>Conversion between RMB and USD is subject to policy restrictions and promulgations relating to RMB and relevant regulatory requirements. Relevant policies may have impact on the ability of the Target Fund to convert between RMB and USD in respect of its onshore and offshore investments, applicable exchange rate and cost of conversion. There is no assurance that conversion will not become more difficult or impossible, or that the RMB will not be subject to devaluation, revaluation or shortages in its availability. There is no guarantee that RMB will not depreciate. The Target Fund will be subject to bid/offer spread on currency conversion and transaction costs. Such foreign exchange risk and costs of conversion may result in capital loss to the Target Fund and its investors.</p> <p><b>Concentration risk</b></p> <p>The Target Fund is highly specialised. Although the Target</p>

Prior Disclosure	Revised Disclosure
	<p>Fund's investment is well diversified in terms of the number of holdings, investors should be aware that the Target Fund is likely to be more volatile than a broad-based sub-fund, such as a global equity fund, as it is more susceptible to fluctuations in value resulting from adverse conditions in the country in which it invests.</p> <p><b>Hedging risk</b></p> <p>The Target Fund Manager is permitted, but not obliged, to use hedging techniques to attempt to offset market and currency risks. There is no guarantee that hedging techniques will achieve their desired result.</p> <p><b>Settlement risk</b></p> <p>In the PRC, some securities transactions are not settled on a delivery versus payment basis, as a result of which the Target Fund may have an exposure to settlement risk.</p> <p><b>Connected party risk</b></p> <p>The Target Fund will be investing in QFI permitted securities via the QFI status of the Target Fund Manager.</p> <p>Although the Target Fund Manager and the Depositary are part of the UBS group each entity will operate independently in assuming their respective duties and obligations in relation to the Target Fund and are subject to the supervision of their relevant regulators. All transactions and dealings between such entities in relation to the Target Fund will be dealt with on arm's length basis having regard to the constitutive documents of the Target Fund as well as the relevant regulatory codes applicable to such entities. In the unlikely event that conflicts of interest arise, the Target Fund in conjunction with the Depositary will seek to ensure that the Target Fund is managed in the best interest of shareholders and that shareholders are treated fairly.</p> <p><b>Clearing reserve fund risk</b></p> <p>Under the QFI regulations, the PRC Sub-Custodian is required to deposit a minimum clearing reserve fund, the percentage amount to be determined from time to time by the China Securities Depository and Clearing Corporation Limited (Shanghai and Shenzhen branches) (the "CSDCC"). The PRC Sub-Custodian will deposit a part of the assets of the Target Fund as part of its minimum clearing reserve fund. The minimum clearing reserve ratio is determined by the CSDCC from time to time and will be deposited by the PRC Sub-Custodian into its minimum clearing reserve fund. In times of rising PRC securities values, the assets of the Target Fund retained in the clearing reserve fund may have a negative impact on the performance of the Target Fund and, conversely, in times of falling PRC security values may cause the Target Fund to perform better than might otherwise have been the case.</p> <p><b>Fixed income securities risks</b></p> <p><i>PRC debt instruments market risk</i></p> <p>Investment in the Chinese debt instruments market may have higher volatility and price fluctuation than investment in debt instrument products in more developed markets.</p> <p><i>Credit risk of counterparties to RMB denominated debt instruments</i></p> <p>Investors should note that as the PRC financial market is nascent, most of the RMB denominated debt instruments are and will be unrated. RMB denominated debt instruments can be issued by a variety of issuers inside or outside the PRC including commercial banks, state policy banks, corporations</p>

Prior Disclosure	Revised Disclosure
	<p>etc. These issuers may have different risk profiles and their credit quality may vary. Furthermore, RMB denominated debt instruments are generally unsecured debt obligations not supported by any collateral. The Target Fund may be fully exposed to the credit/insolvency risk of its counterparties as an unsecured creditor.</p> <p><i>Interest rate risk</i></p> <p>Changes in macro-economic policies of the PRC (i.e. monetary policy and fiscal policy) will have an influence over capital markets affecting the pricing of the debt instruments and thus, the return of the Target Fund. The value of RMB denominated debt instruments held by the Target Fund generally will vary inversely with changes in interest rates and such variation may affect value of the Target Fund's assets accordingly. Typically, when interest rates increase, the value of fixed income assets tend to depreciate. On the contrary, when interest rates decrease, the value of fixed income assets tend to appreciate.</p> <p><i>Valuation risk</i></p> <p>RMB denominated debt instruments are subject to the risk of mispricing or improper valuation, i.e. operational risk that the debt instruments are not priced properly. Valuations are primarily based on the valuations from independent third-party sources where the prices are available, accordingly valuations may sometimes involve uncertainty and judgemental determination and independent pricing information may not be available at all times.</p> <p><i>Credit rating risk</i></p> <p>Many of the debt instruments in the PRC do not have rating assigned by international credit agencies. The credit appraisal system in the PRC is at an early stage of development; there is no standard credit rating methodology used in investment appraisal and the same rating scale may have a different meaning in different agencies. The assigned ratings may not reflect the actual financial strength of the appraised asset.</p> <p>Rating agencies are private services that provide ratings of the credit quality of debt instruments. Ratings assigned by a rating agency are not absolute standards of credit quality and do not evaluate market risks. Rating agencies may fail to make timely changes to credit ratings and an issuer's current financial condition may be better or worse than a rating indicates.</p> <p><i>Credit rating downgrading risk</i></p> <p>An issuer of RMB denominated debt instruments may experience an adverse change in its financial condition which may in turn result in a decrease in its credit rating. The adverse change in financial condition or decrease in credit rating of an issuer may result in increased volatility in, and adverse impact on, the price of the relevant RMB denominated debt instruments and negatively affect liquidity, making any such debt instruments more difficult to sell.</p> <p><b>PRC tax risk factors</b></p> <p>There are risks and uncertainties associated with the current PRC tax laws, regulations and practice in respect of capital gains realized or interest arising from the Target Fund's investments in PRC securities (which may have retrospective effect). Any increased tax liabilities on the Target Fund may adversely affect the Target Fund's value. Based on professional and independent tax advice, the tax provisioning policy of the Target Fund is as follows:</p> <p>(i) Provide for 10% Withholding Income Tax ("WIT") in respect of interest income received where such WIT has not been withheld by the PRC issuers, or in respect of</p>

Prior Disclosure	Revised Disclosure
	<p>interest income accrued, with regard to non-government onshore PRC bonds.</p> <p>(ii) Provide for 6.3396% Value Added Tax ("VAT") (including surcharges) in respect of interest income received where such VAT has not been withheld by the PRC issuers, or in respect of interest income accrued, with regard to non-government onshore PRC bonds (this VAT provision applies from 1 May 2016).</p> <p>Upon any further changes to tax law or policies, the board of directors of the Company, in consultation with the Target Fund Manager, will, as soon as practicable, make relevant adjustments to the amount of tax provision as it considers necessary. The amount of any such tax provision will be disclosed in the accounts of the Target Fund.</p> <p>If the actual applicable tax levied by PRC tax authorities is greater than that provided for by the Target Fund Manager so that there is a shortfall in the tax provision amount, investors should note that the net asset value of the Target Fund may suffer more than the tax provision amount as the Target Fund will ultimately have to bear the additional tax liabilities. In this case, the then existing and new shareholders will be disadvantaged. On the other hand, if the actual applicable tax levied by PRC tax authorities is less than that provided for by the board of directors of the Company so that there is an excess in the tax provision amount, shareholders who have redeemed the shares before PRC tax authorities' ruling, decision or guidance in this respect will be disadvantaged as they would have borne the loss from the overprovision. In this case, the then existing and new shareholders may benefit if the difference between the tax provision and the actual taxation liability can be returned to the account of the Target Fund.</p> <p><b>Risk information on investments traded via Shanghai-Hong Kong Stock Connect or Shenzhen-Hong Kong Stock Connect ("Stock Connect")</b></p> <p><b>Risks relating to securities trading in mainland China via Stock Connect</b></p> <p>If the Target Fund's investments in mainland China are traded via Stock Connect, there are additional risk factors in relation to these transactions. In particular, investors should note that Stock Connect is a new trading programme. There is currently no empirical data. Furthermore, the corresponding provisions could change in future. Stock Connect is subject to quota limits that could restrict the Target Fund's ability to perform transactions via Stock Connect in a timely manner. This could impair the Target Fund's ability to effectively implement its investment strategy. The scope of Stock Connect initially encompasses all securities included on the SSE 180 Index and SSE 380 Index, as well as all Chinese A-shares listed on the SSE which have corresponding H shares listed on the Hong Kong Stock Exchange ("SEHK") (with the exception of the SSE-listed shares which are not traded in RMB and SSE-listed shares which are under risk alert). It also extends to all securities included in the SZSE Component Index and the SZSE Small/Mid Cap Innovation Index with a market capitalisation of at least RMB 6 billion, as well as to all Chinese A-shares listed on the SZSE. Investors should also note that under the applicable regulations, a security can be removed from the Stock Connect programme. This could have an adverse effect on the Target Fund's ability to achieve its investment objective, for example if the Target Fund Manager wishes to acquire a security that has been removed from the Stock Connect programme.</p> <p><b>Beneficial owner of SSE and/or SZSE shares</b></p>

Prior Disclosure	Revised Disclosure
	<p>Stock Connect consists of the 'northbound' link, through which investors in Hong Kong and abroad, such as the Target Fund, may acquire and hold Chinese A-shares listed on the SSE ("SSE shares") and/or SZSE ("SZSE shares"), and the 'southbound' link, through which investors in mainland China may acquire and hold shares listed on the SEHK.</p> <p>The Target Fund trades in SSE shares and/or SZSE shares through its broker which is associated with the Company's sub-custodian and admitted to the SEHK. After settlement by brokers or depositaries (the clearing agents) these SSE shares and/or SZSE shares shall be held in accounts in the Hong Kong Central Clearing and Settlement System ("CCASS") maintained by Hong Kong Securities and Clearing Company Limited ("HKSCC"), the central securities depository in Hong Kong and the nominee. HKSCC in turn holds the SSE shares and/or SZSE shares of all participants in a "Single Nominee Omnibus Securities Account", which is registered in its name with ChinaClear, the central securities depository in mainland China.</p> <p>Since HKSCC is only the nominee and not the beneficial owner of the SSE shares and/or SZSE shares, if HKSCC were to be wound down in Hong Kong, the SSE shares and/or SZSE shares would not be deemed part of HKSCC's general assets available for distribution to creditors, even under PRC law. However, HKSCC is not required to take legal measures or initiate legal proceedings to enforce rights on behalf of investors in SSE shares and/or SZSE shares in mainland China. Foreign investors - such as the Target Fund - who invest through Stock Connect and hold SSE shares and/or SZSE shares via HKSCC are the beneficial owners of the assets and are therefore entitled to exercise their rights exclusively through the nominee.</p> <p><b>Not protected by the Investor Compensation Fund</b></p> <p>Investors should note that neither northbound nor southbound transactions via Stock Connect are covered by the Investor Compensation Fund in Hong Kong or the China Securities Investor Protection Fund. Investors are therefore not protected against these measures.</p> <p>The Investor Compensation Fund in Hong Kong was set up to compensate investors of any nationality who sustain monetary damages as a result of a licensed intermediary or an authorised financial institution defaulting on payments in connection with exchange-traded products in Hong Kong. Examples of payment defaults are insolvency, bankruptcy or winding up, breach of fiduciary duty, misappropriation, fraud or unlawful transactions.</p> <p><b>Risk of quotas being used up</b></p> <p>Once the daily quotas for northbound and southbound transactions have been reached, acceptance of corresponding purchase orders will be immediately suspended and no further purchase orders will be accepted for the rest of the day. Purchase orders that have already been accepted are not affected in the event the daily quota is used up. Sell orders will continue to be accepted.</p> <p><b>Risk of ChinaClear payment default</b></p> <p>ChinaClear has set up a risk management system and has taken measures that have been approved by the CSRC and that are subject to its supervision. Under the general CCASS rules, should ChinaClear (as the central counterparty) not meet its obligations, HKSCC shall attempt, where applicable, in good faith to claim the outstanding Stock Connect securities and ChinaClear funds via the available legal channels and during the winding up of ChinaClear. HKSCC shall, in turn, distribute the Stock Connect securities and/or funds that can be reclaimed pro rata to qualified participants in accordance</p>

Prior Disclosure	Revised Disclosure
	<p>with the regulations of the competent Stock Connect authority. Investors should be aware of these regulations and the potential risk of a payment default by ChinaClear before investing in the Target Fund and its participation in northbound trading.</p> <p><b>Risk of HKSCC payment default</b></p> <p>Should HKSCC be delayed in fulfilling its obligations, or even fail to do so altogether, this could lead to settlement default or the loss of Stock Connect securities and/or associated funds. The Target Fund and its investors could incur losses as a result. Neither the Target Fund nor the Target Fund Manager is responsible or liable for such losses.</p> <p><b>Ownership of Stock Connect securities</b></p> <p>Stock Connect securities are unsecuritised and held by HKSCC on behalf of their holders. The physical deposit and withdrawal of Stock Connect securities are not available to the Target Fund under northbound trading.</p> <p>The ownership and ownership rights of the Target Fund and entitlements to Stock Connect securities (regardless of the legal nature thereof, in equity jurisprudence or otherwise) are subject to the applicable requirements, including the laws on the disclosure of interests and the restrictions on foreign share ownership. It is unclear whether the Chinese courts recognise investors and would grant them standing to initiate legal proceedings against Chinese companies in the event of disputes. This is a complex legal area and investors should seek independent professional advice.</p>
