Retirement Crisis Today

Malaysians who plan to retire in **20-30 years** will need **RM900,000 - RM1 million** to retire comfortably¹

52% of EPF's members have less than RM10,000 in their accounts, while **27%** have less than RM1,000²

56% of EPF members around age 54 years old currently have **less than RM50,000** in their accounts¹

73% of EPF active members and **84%** of all members had inadequate savings, which would see them unable to afford even RM1,000 monthly during retirement³

Malaysians who are retiring in the next few years will need about **RM600,000** to have a dignified retirement in Kuala Lumpur, and only about **4%** of Malaysians could afford to retire with RM600,000 savings threshold²

Two-third (71%) of EPF members **aged 55 and below** do not have enough funds for retirement to raise them above the poverty level⁴
